and Water Management*

## Royal Netherlands Meteorological Institute (KNMI)

KNMI  
National  
poster

**National poster presentation:**  
**Gerrit Burgers**  
**Head R&D Weather Service**

## National Poster contributions

- Gerard Cats                      Running Hirlam on Graphical Processing Unit (GPU)
- Gertie Geertsema                100m wind climatology for regulation
- Siebren de Haan                 Assimilation of Mode-S aircraft observations
- Siebren de Haan                 Semi-operational Ascat assimilation
- Emiel van der Plas              Harmonie for aviation
- Wim de Rooy                      Impact new convection/cloud scheme in HARMONIE
- Roel Stappers                     Extending the validity of the tangent assumption

# Operational model: Hirlam 11km

Version 7.2, 3-D VAR

- Large domain (NE Atlantic/Europe)  
runs 4x/day, on ECMWF boundaries
- Small domain (Europe center)  
runs 8x/day, on Hirlam boundaries

# Research / experimental model: Harmonie\_AROME 2.5km

- Small domain, 300 x 300 points around NL  
2x/day, on Hirlam boundaries
- Working towards 1000 x 1000 points  
8x/day, planned for 2011
