

Introduction to the 35th EWGLAM and 20th SRNWP Meetings

Gergely Bölöni

The programme

- Structure is kept according to the „EWGLAM final discussion” last year (Consortia presentations, Review talks, Thematic session talks, short poster intro, SRNWP business meeting)
- Posters will be set up until the end of the meeting
- 10 minutes discussions after each thematic session → Chairs, if relevant, please take notes (meant for the web as a reminder)
- „Strong constraints”:
 - Ice breaker today at 18:00
 - Excursion on Wednesday at 15:00
(both hosted by the Turkish State Meteorological Service)
- Chairs, please make sure that the schedule is kept!

The programme: last minute changes!

The weather forecast is really bad for Wednesday afternoon! You know, weather forecasts are to prevent weather related problems:

- The excursion is re-scheduled for Tuesday afternoon (instead of Wednesday)
- The Physics and Surface sessions are re-scheduled for Wednesday afternoon (instead of Tuesday)
- The ALADIN LTM meeting is re-scheduled for Wednesday evening

Participants, Welcome

- 74 participants from 28 countries
- No representatives from 5 C-SRNWP members (Cyprus, Iceland, Luxemburg, Serbia, Montenegro)
- No representative of ECMWF → no talk on behalf of ECMWF
- Representative of JMA (Junichi Ishida)
- Representative of Hong Kong Observatory (Kai Kwong Hon)
- EUMETNET Forecasting Programme Manager (Dick Blaauboer, KNMI)

Hard days are coming with hard choices!

Enjoy the meeting.... and/or.... enjoy Antalya!
